

## UNDER-LIGHTING 50w - 100w

**2.6  
umol/J**

**Cost  
Effective**

**Better  
Yield**

**Saves  
Energy**

- **Key Advantages**
- Greenhouse Applications
- Available for double sided or Four sides models.
- Can be placed in the aisle, in order to provide more light penetration to reach the lower canopy.
- Can be placed in the canopy of the wire suspended crops.
- Provides uniform light penetration & distribution to wire suspended crops .

### MKB Series -

#### ALL SIDED

|               | Specification                                  |  |  |
